Become a Project Lead

"Your Project, Handled" service · Open Community (OPC)

Hello and welcome! 👋

You're invited because you're energetic, thoughtful and already use AI. This guide takes 5 minutes to read.

> ⚠️ **Please note:** the **Project Lead** section is **being rolled out** in the OPC app. If you don't see it yet, that's normal: try again in a few days or write to us with the app's contact button.

---

1. Your role

Some people have a project (finding a job, launching a small website, planning a move…) but don't want to talk to AI every day.

You keep the AI moving for them.

- You follow **one client project** at a time, start to finish.
- You turn the goal into **clear instructions** for the client's AI.
- You track progress and adjust the instructions.
- You tell the OPC team when **only the client can act**.

---

2. How to start

1. **Sign up** at **opencommunity.app**.
2. Go to **Earn now › Technical support › Become a Project Lead**.
3. Tap **Register** and complete the 7 steps (ID document, face scan, these instructions).

4. **Take the training with Indiana**, right inside OPC.

---

3. How it works

- 📄 **An anonymous project sheet.** You never see the client's name, address or accounts: only the goal, the deadline and summaries.
- 🤖 **Your AI, with its harness.** You use your usual AI with the "Guide Harness" provided by OPC. It helps you prepare the instructions.
- ✅ **OPC checks.** Indiana reviews every instruction. It is then signed, and the client sees it before accepting it.
- ❓ **A question for the client? Always** go through OPC, with the **"contact the team"** button in the app. Indiana writes to the client and sends you the answer.
- 🚫 **Never contact the client directly** (no phone, email or social media).

---

4. Strict limits

- ❌ **No money**: no access to the client's accounts or payments.
- ❌ **No documents**: no ID or official papers.
- ❌ **No signing** and no commitments on the client's behalf.
- ❌ **No advice** on medical, legal or financial matters.
- 🔒 **Confidentiality**: you never discuss the project with anyone.
- 🔞 **Adults only**: clients and Project Leads are 18 or older.

The client can remove their Project Lead at any time.

---

5. Pay

It will be **specified at launch**. For now, no amount is set and no income is guaranteed.

---

6. A typical day (example)

- **Morning (15 min)**: read the project summary in OPC ("done / next / question").
- **Midday (20 min)**: with your AI and its harness, prepare the next instruction. For example: "Write 3 versions of a cover letter for a sales job."
- **Afternoon**: you need more info ("which cities?"). Send it via **"contact the team"**.
- **Evening (10 min)**: the client's answer arrives through Indiana. Adjust the instruction and send it to OPC.

---

7. Steps to your first clients

1. Sign-up and interest form.
2. Training with Indiana in OPC: the role, the Guide Harness, the question flow, the limits.
3. A practice run on a fictional project, reviewed by Indiana.
4. Approval by the OPC team.
5. **Your first client is assigned** (pilot).
6. Later, the best Project Leads can become **representatives** and train the next ones.

Thank you for joining us! 🙏 **The Open Community team**
